

**Report of  
YEE Treasurer 2015-2016  
Janis Porietis**

Dear YEE,

As this is my first and only time on being on YEE Board (I am turning 30) I tried my best on being a good Treasurer and these are my tasks for this year:

**Check and enhance the financial situation of YEE**

I checked the financial information sent to me by the Secretary General and reviewed it before applying for the EU grants. I also reviewed the situation of the YEE bank account and presented my suggestions on how to decrease the bank charges in the physical Board meeting. The Secretariat was given a task to implement it. I am looking forward on helping the Secretary General to prepare the Annual Financial report before the Annual Meeting.

I was also working on enhancing the financial situation of YEE and with the help of Vasily (previous Treasurer) we developed a donation letter and afterwards discussed it with other Board members. It is not yet finalized because there are still unfinished tasks with it. As the donation letter is not finalized, the other tasks I was planning on work on are not done, because they are connected with the donation letter.

I participated in almost all of the Virtual Board meetings and in all of the Physical Board meetings and after them I worked in different small work groups. For example, on changing the Board member policy documents.

Thanks for the great team from the Board and Secretariat. It was a pleasure.
